

## European Youth Employment Network – EYEN European Youth Together Project

"European Youth Employment Network – EYEN" which will be founded via the project will bring together institutions working on youth employment from the EU and candidate countries and will enable institutions and young people to contribute to policymaking, strategy-making and needs determination processes on youth employment. It will also provide youth and institutions with large scale cross-border mobility, international online and offline capacity building programs, forums, networking and access to decision makers.

### Outputs & Outcomes

**O1:** Establishing EYEN: it will enable institutions to participate in transnational cooperation, innovation transfer, policy making processes and accessing decision makers.

**O2:** EU Youth Employment Needs Survey"

**O3:** Policy Document Booklet on Youth Employment Support Package Ideas and Recommendations for EU Youth".

**O4:** EYEN Network Platform: It will provide institutions with a digital infrastructure so that they can do all their activities online free of charge, offer free capacity building training programs to their target audience via the platform, connect with new young people and institutions and work on joint projects simultaneously. EYEN will organize "Online Youth Employment Fair" through the platform regularly every year.

**E1:** EYEN Youth Capacity Building Program: The individual competencies of young people who will take an active role and responsibility in running the network will be developed.

**E2:** EYEN Transnational Large-Scale Exchange Program: Young people will gain experience by participating in a 1-month transnational internship / on-the-job training program in project partner institutions.

**E3:** European Youth Employment Summit: It will enable the network to reach more institutions and young people across the EU, and it will provide the opportunity for networking and new project partnerships.

**A1:** Local Youth Employment Workshops: It will contribute to the production of the O3 output by bringing local stakeholders together with young people.

**A2:** Online Activities: It will enable institutions and young people to work in the field of youth employment without being affected by the pandemic.
