

Disadvantageous Youth's Education Symphony Orchestra

Category : Sustainable Development

Target Group : Students of Culture and Art Departments Departments of Universities

Project Aims :

An orchestra will be established with including disadvantageous youngs as unemployed, disabled, uneducated and drug addicted people and young professional musicians who partaking in partners' orchestras from 7 different European countries within the scope of the project.

(DESO+) This orchestra has the characteristic of being first international composite structure with its members all around EU. In the scope of this orchestra, "Basic Music Capabilities Experience" training module will be produced which will be applied in 2 weeks by using unique and the non-formal training methods and innovative music teaching techniques.

(Under the leadership of experts)

This module teaches youngster with core music information within 2 weeks and 100 hours and enable them to experience a simple musical instrument in a basic manner. This module will be applied as a pilot implementation in Madrid / Spain for a term for two weeks with the participation of the youngsters from different countries of the Europe. Besides, Desoplus.org (a website and application) will be developed for this training to be spread over the wide masses and this module can be applied in different regions of the world by following up the system. The youngsters who join the module will take stage with professional musicians from project partners at the end of the 2 weeks period and experience a concert that they will not forget for their life.

Disadvantageous Youth's Education Symphony Orchestra

At the last phase of the project, there will be held an internationally participated summit called as "DESO+ and Successes of Youngsters" and innovative training module which is developed with the project will be introduced in this summit and at the same time all the youngsters who join the project will have an concert experience with professional musicians of partners and common country institutions.
