

Social Innovation For Social Change

Category : Entrepreneurship and Startups

Target Group : Potential Social Entrepreneurs, University Graduates

Project Aims :

Social Innovation For Social Change project aims to build competitive knowledge-based European youth societies through developing their entrepreneurial potential and creativity competencies; and to transfer these into a workable solution against youth unemployment by closing the gap between the more advanced and successful EU members and the countries lagging behind.

Social Innovation For Social Change will encourage European partnership at a multi-level platform by linking the institutional environment - local authorities, business, NGOs, with the high educational institutions to operationalize a cross-sectoral and transparent European cooperation in education and training.

Social Innovation For Social Change
